

Hi

Like you and thousands of others, I find myself having to make space at home for my new office location. As you know with that, comes many additional challenges such as extra screens, computers, cables, a desk, perhaps even a chair!!!

And then it gets even better...

The internet connection.

Yep, the dreaded lurgy commonly known as NBN - No BI\$%dy Network connection!

I too, have been a victim of this foul play during the last few weeks and months, which has no end of issues and frustrations. Which is why I wanted to reach out to you to let you know you are not alone!!!!

If you are struggling with any computer, software - hardware, network issues, VPN connections which is impacting how you can operate your business, then please reach out and call me. There are some solutions and strategies that we have that might save you and your sanity.

We can still offer you:

- Remote support
- Pickup and Drop off (your computer not your kids!!) Online
- purchasing

By the way this is the beginning of building the new 'Home Office'. Watch this space for the updates!

Past Issues

## Are your home technology devices performing optimally?

Did you know that 600,000 hard disks crash every year in Australia?

In addition, nearly a third of all Australian adults are affected by cybercrime, losing precious money to new viruses and security threats that emerge every day.

And finally, the average home has 18 smart devices and within a few years this will grow beyond 25 devices...all connecting wirelessly to a network WITH the capacity to transmit data.

Is this your household??

If so, then read through one of our latest blogs on how to stay safe AND protect yourself from cyber dangers.
